-  [Click here for my portfolio](#)

## SKILLS

- Python, SQL, Git, GitHub
- ML & AI
- Data Processing
- Visualization & Cloud
- Deployment

## LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Punjabi (Fluent)

## WORK EXPERIENCE

Passionate and results-driven Machine Learning Engineer with a strong foundation in Python, Data Science, and Deep Learning. Skilled in developing predictive models, preprocessing large datasets, and implementing AI solutions. Experienced in working with frameworks like TensorFlow, PyTorch, and Scikit-learn. Dedicated to continuous learning and solving real-world problems using AI and data-driven insights.

## EDUCATION HISTORY

### Bachelor's in Artificial Intelligence / Computer Science

UET Mardan | 2022-2026

Machine Learning, Deep Learning, Data Science, Probability & Statistics, NLP, AI Ethics

## PROJECTS

- DIABETES PREDICTION
- MOVIE RECOMMENDATION SYSTEM
- EMOTION PREDICTION
- VOLUME CONTROL WITH GESTURES

## INTERNSHIPS & WORK EXPERIENCE

- ⇒ AICP – Basic Coding Internship (2 Months)
- ⇒ AICP – Web Development Internship (4 Months)
- ⇒ UET Career Launchpad – Machine Learning & Data Science Associate (6 Months)
